The Indian's Panacea.

ROR the cure of Rheumatism Scrofula or King a gril, Gout, Sciatica, or Hip-Gout Incapical Cancers Salt Rheum, Syphilitic and Mer-King's grit, Gout, Sciatica, or Hip-Gout Incapical Cancers Sait Rheum. Syphilitio and Mercarial diseases particularly Ulcers and painful affections of the bones. Ulcerated Throat and Nostrils; Ulcers of every description, Fever sores's and Internal Abscesses; Fistulus, Piles, Scaldberg, Scaresy, Biles, Chronic, Sore Eyes, Eye resipelss Bloches, and every variety of contageous Affection, Chronic Gatarth, tleadache, proceeding Panacca. In ope month I found myself entirely Swelling Parsnip, Affection, Chronic Gatarth, tleadache, proceeding and many how happy to state Generated the use of The Indian's Swelling Parsnip, Affection, Chronic Gatarth, tleadache, proceeding Panacca. In ope month I found myself entirely Swelling Parsnip, Generated the use of The Indian's Swelling Parsnip, Affection, Chronic Gatarth, tleadache, proceeding Panacca. In ope month I found myself entirely Swelling Parsnip, Generated the use of The Indian's Swelling Parsnip, and any now happy to state Generated the use of The Indian's Swelling Parsnip, and the pain, and am now happy to state Generated the use of The Indian's Swelling Parsnip, and the pain, and am now happy to state Generated the use of The Indian's Swelling Parsnip, and the pain, and am now happy to state Generated the use of the Indian's Swelling Parsnip, and the pain and am now happy to state the pain and the pain and the part of the part of the pain and the part of the part o Affection, Curonic Catarth, tleadache, proceeding from an acrid humor; Pain in the Stomach and Drapepaia, proceeding from vitiation; Affections of the Liver, Chronic Inflamation of the Kidneys, of the Liver, Chronic Inflamation of the Kidneys, and general debility, caused by a torpid action of the resseis of the skin. It is singularly efficacious by renovating those constitutions which have been broken down by injudicious treatment, or juvenile irregularities. In general terms, it is recommen-ded to all those issence which arises from imurri-sed in the blood, vitiation of the humors, of whatever name or kind.

Some of the above complaints may require some riding anistant applications, which the circumstances of the case will dictate; but for a general remedy or Purificator, to remove the cause, The Indiana Panacea will generally be found sufficient

To the Public.

How true it is, that modern Physicians-in their imbition to excel in their profession; to explore the vast fields of sience by the aid of Chimistry, and seek out new remedial agents; in short to arorne, overlook and neglect, as beneath their the electric healed and became perfectly well in the course of two months, and have remained so ever which the almighty has caused to spring out of the carth is every climat. Led have spring out of the since. I make this statement and minimum to the course of two months, and have remained so ever carth is every climat. Led have spring out of the earth is every chime * And how much mere true it is, that while the American Physician looks to foreign countries for many of his most common and

necessary articles for many of his those common and necessary articles perpetually changing as they are the dictates of fashionals folly he is au rounded in his own country with an endless profusion.

The congeniality, efficiency and savery of vegetable remedies over mineral, may be estimated by contrasting the ancient practice with the modern; or to bring it more immediately under our own ob servation, the Indian practice with that of the whites. Who, in America, has not known or heard of reposted instances (wherein some decreptd, unpretending ismale Indian by means of her simple remedies alone, has effected the most rapid and as-tonishing cures, after the whole Materia Medica of the common practice, directed in the most skilful manner has failed. And who has not been surpriswith which the Indian frees himself of any discase, and at the almost total absence of chronic disease among them. Who has ever heard of an Indiss with a constitution broken and ruined by ill treatment? And can a doubt exist, that this happy exemption of the savage from most of the ills which the fiesh of civilized man is heir to, is chiefly owing to the more genial and safe remedies which he employs. This astonishing difference in success, is a fair exemplification of the infinite superiority of the simple and safe means of cure which God has emeted for the benefit of his children, over has created for the benefit of his children, over those which the pride and the art of man have is-

From a long residence among a portion of the aboriginal inhabitants of this country, and an intimate acquaintance with the methods of cures of some of their most successful continues. con of the "THE INDIAN'S PARACLA," acquired a knowledge of some of their most powerful and favorable remedies. From these he selected such as were most efficacious and appropriate, and after various experiments to test their principles and trength he has combined them in the form here

his afflicted fellow beings, who are suffering under the various chronic and obstinate complaint to which it is applicable. To such it will prove of inestentiable value, as the means, and in many cases the only means of relawing their sufferings and restoring them once more to health and happiness. This is not offered as a common remode, that may This is not offered as a common remedy, that may perchance be equally good with many others now in use, but as one which is capable of saving life in many extreme cases, when all the usual remedies fail. Thus it has done repeatedly; and this is the reputation it has obtained wherever it has been in-

It is only about three years since this prepara-tion was first presented to the public: but in that short space of time, some hundreds of persons might be found, who would solemnly declare that they believed that their lives were saved by it, and in most cases after they had tried many permon remedies in vain. Who hans all the co it is known it is rapidly coming into use, and this affords the most substantial and convincing proof

of its merits. The value of the Panacea, is most conspicuous in those long standing and obstinate syphilitic and acrosulous affections which have defided all other remoties, and particularly in those cases where mercury has been so lavishly used as to cause discovering the standard of the standard tressing pains in the bones, nodes, mercurial ul cers, decangement of the digestive organs, &c
These it completely removes and in all cases I entirely eradicates the disease and the effects o mercury renovates the constitution, and leave the patient sound and well. In Rheumatisms and in ulcerated sore throat, its happy effects are not

ess apparent, giving almost immediate relief. Taken in proper doses, THE INDIAN'S PANACEA operates as an alternative, and detergent; a diart oretio, disretie and laxative; an antipasmode and anodyne, and in proper cases, as a stomachni and emmenagogue. Generally expressed, it sic creases all the secretions and exertions, gives tonrto the stomach, and excites action in the glands in a particular manner. From these principles the operation may be understood.

This medicine has been found highly useful in Banks of Camden

he been used with wonderful success as a Spring id Fall purifier, by those who are subject to est aints of the chest, and whose constitutions re aire new vigor. Such persons will do well the two or three bottles in small doses. Wherever diet drink is considered necessary, the Panacea. taken in a small dose, will answer all its purposes in much less time, at less expense, and in a far more agreeable manner, than the common diet

The following certificates, out of hundreds similar which might be procured, are given to show the effect of THE INDIAN'S PANACEA, in the various complaints therein mentioned; and also to exhibit in the most satisfactory manner its superiority over the syrups in common use.

CASES OF RHEUMATISM.

CHARLESTON, Nov. 15, 1831. During the last winter and spring, I was afflic-d with a very severe and distressing Rheumatism occasioned by exposure in bad weather. I now take great pleasure in stating, that six bottles of the Indian's Panaces, restored me to perfect health, and I confidently recommend it to all similarly afflicted.

JOHN FERGUSON, King-st. CHARLESTON, March 27, 1832 I was seized about three years since with a dis-tressing Rheumatism caused by taking a severe cold while under the influence of mercury, and do which has disabled me from husiness nearly ever ured from the pain, and am now happy to state

tha I feel myself perfectly well.
WM. TUCKER, 13 Market-st. CURE FOR SCROFULOUS ULCERS

New York, Sept 10, 1830 This may certify, that in the fall of 1825, I was wized with a swelling in my neck and face, which afterwards ulcerated and became large ghastly acres in my neck. After trying several Physicians to no advantage, I wentto Philadelphia, and placed myself under the care of Drs. Physic and Beach, when, after repeated salivation to no effect, I was pronounced totally incurable. Afterwards I took twenty bottles of Swain's Panacea and eight bottles of Potter's Catholicon, with no material benefit. Desparing of life, which had now become a bur-then to me, I returned to my parents in New York in 1823, and gave myself up to a lingering death. Hearing of the great success of THE ISDIAS'S A-NACEA, however, in cases similar to my ow: 1 was persuaded to try it, as a last resort. To my great surprise as well as satisfaction, I soon found myself for the benefit of those who are suffering under similar scrofulous or syphilitic affections, that they may know what has cured one who has suffered every thing but death, and who considers his life saved by the above syrup. WM. HINHAN.

The above Medicine may be had at
